Witnessing the Autumn

an experiential
forest gathering

**JOIN US FOR AN ARTFULLY HOSTED,
EXPERIENTIAL IMMERSION INTO THE
AUTUMN SEASON. A GENTLE WALK IN
THE HAAGSE BOS WITH CONVERSATIONS,
PROMPTS AND POEMS TO OPEN OUR
SENSES TO WHAT THIS SEASON INVITES
IN US.**

“

We will wander through the forest, lightly guided by simple questions & reflections, pausing to notice what is present, and deepening into the magic of autumn. This witness practice is a moment to pause, reconnect with nature, yourself and others, and to find inspiration.

**Mansi Jasuja &
Joeri van Beek**

For years, Joeri & Mansi have been walking together, tuning into the quiet transformations of the seasons.

Joeri, an artist exploring the 'Beauty of Nothingness', sees hidden figures in the ordinary, revealing the micro-worlds often overlooked. Mansi, a practitioner of participatory leadership, searches for patterns and connections in the bigger picture, what flows between boundaries, what emerges when we step back. Together, their ways of seeing meet in rich conversation and playful noticing.

We invite you to join us in this autumn walk, opening our senses to the beauty nature offers. **What might you discover when you let the season speak?**
